

Gravostyle™ Levels & Options

Unique software for
mechanical and laser
engraving machines

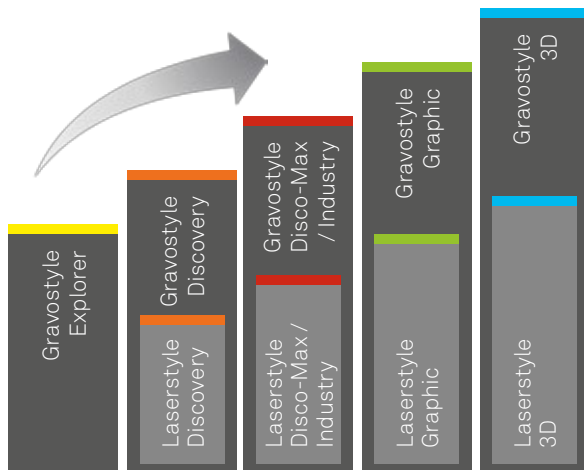

GRAVOSTYLE
SOFTWARE SOLUTION

LEVELS OVERVIEW

Gravostyle™ is available from Explorer to 3D levels, thus offering a wide range of business functions adapted to different sectors of activity.

Functions accumulate over the levels.

Through the electronic licence system, users can easily update their software online.

Functionalities available at all levels:

- Practical and intuitive interface
- Personalisation of the work space
- Step-by-step function assistance
- Interactive and dynamic help with videos
- Machine accessories management: cylinder attachment and automatic plate feeder (APF) etc.
- Compatibility with True Type fonts
- Management of left/right and top/bottom script
- Engraving parameters saved with the job
- Zoom, print, grid and guide-line functions

Discovery

[mechanical + laser]

Essential lettering capabilities

Go hybrid
Drive laser & rotary technology

CHARACTERISTICS

- Import of vector files (DXF, EPS, HPGL etc.) and images (BMP, JPG, PNG and TIF etc.)
- Plate Point & Shoot: makes it possible to define the engraving area directly with the machine
- Standard text functions
- Automatic centering function and centering texts on the plate
- Pre-routed engraving fonts
- Extensive choice of symbols
- Intuitive management of toolpaths by colour with advice on the choice of tools
- On-screen preview

- Duplication of plates and lists of variables
- Management of plans
- PDF import and file export (PDF, DXF, EPS, HPGL etc.)
- Alignment and conversion tools
- Geometric shapes
- Laser control capacity using predefined parameters
- Calibration: simplified discovery of engraving parameters for new laser materials

OPTIONS

Personalisation pack:

- Photograph processing Dedicace™ freehand drawing
- Additional pre-routed engraving fonts

- Braille production
- Font editor

★ APPLICATIONS

- Badges, letter box plaques and door plaques
- Photograph engraving
- Jewellery and gifts
- Pens
- Pet tags, key rings
- Ornamental plaques
- Labels for valves and pushbuttons

- Engraving of plates with automatic serial numbering
- List of variabilised names
- Small signage
- Funeral plaques
- Rubber stamps

Productivity pack

Industry
Power, precision and productivity

Unleash your creativity

Take your engraving to a new dimension

- Scanning and vectorisation
- Point mode and bitmap editor
- 2D filling by colour
- Personalisation
- Font pack (over 100 fonts)
- Scripts (automated functions)

- Dials and scales
- Scripts (macro functions)
- Long plate
- Measurement tools
- Batch import function
- Import of external data (CSV, TXT, Excel, SQL, ODBC etc.)
- Shape duplication tools

- Nesting (material usage optimisation)
- CAM module (advanced tool management)
- Powerful on-screen simulation and rendering
- Advanced Braille toolpath management
- Print & Cut module
- LED positioning module
- Laser photograph engraving module
- Cutter (die, etc)
- Shading (3D effect)

- Surface design and manipulation tools
- Styl'Art 3D model module
- 3D texture
- Sculpting tool
- 3D CAM toolpath management
- 3D preview tools
- All 2.5D functions included as standard

- Text on a shape

- Barcodes, Datamatrix™, QR code and UID - unique identification with management of variables

- 2.5D toolpath for jewellery, punches and intaglio for signage
- Laser toolpaths for deep marking

- Scanning and engraving of logos
- Trophies, awards and giftware
- Plaques with texts and logos
- Labels, plaques and signage with text, symbol or logo

- Machine plates
- Front panels
- Identification and traceability parts
- Printed circuits
- Linear and 2D barcodes
- Laser cutting of paper and cardboard

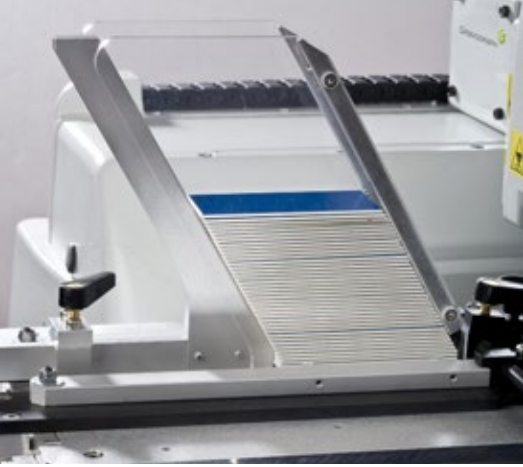

- Laser photograph engraving
- Model making
- Marquetry
- Design and production of trophies
- Cutting out of printed signage
- Trade sign design

- 3D signage
- Display stands
- Embossing dies
- Industrial moulds
- Furniture decoration
- Models and prototypes
- Trophies and awards
- Commemorative plaques

EXPLORER LEVEL

Badges, letter box plaques and door plaques, photograph engraving, jewellery and gift market, pen, pet tags, key rings, ornamental plaques, labels for valves and push buttons...
